FOR IMMEDIATE RELEASE

QUICK ADJUST FLANGE COLLARS NOW OFFERED WITH HEX & SQUARE BORES

An expanding line of quick adjust flange collars for mechanical drive systems where regular adjustments are required has been introduced by Stafford Manufacturing Corp. of Wilmington, MA.

Python™ Flange Collars feature a split hub on the flange that allows easy installation and an integrated Flip-Lok™ lever-operated clamp that permits one-handed tightening and positioning. Now offered with round, hex, square and threaded bores and a plain flange or six-hole bolt pattern for numerous mounting options, they are ideal for a wide range of mechanical drive applications.

Capable of handling 200 lbs. axial loads, Python™ Flange Collars come in 15 bore sizes from 3/8" to 1-1/4" and 10 from 8 mm to 30 mm. Available plain or with a keyway and varying flange O.D.s and widths, these standard collars are made from aluminum, but steel and stainless steel are available upon request.

Python™ Flange Collars are priced according to size and quantity. Price quotations are available upon request.
